To the Enersul Team,

Congratulations everyone for your contribution and continuous efforts to work safely each and every day. It is because of everyone's dedication and effort that we have accomplished 1 year without a recordable injury company wide, and have reached our goal of ZERO recordable incidents.

Well done everyone, we have proven once again that it can be done.

Kind Regards,

Trevor Greer
President and General Manager of Ops.

Marc Prolux
President and General Manager of Tech
